Elevate Oracle Cloud Testing with LTIMindtree's RELY Platform

Introduction

Traditional software testing processes are often cumbersome, time-consuming, and prone to errors. These problems hinder businesses from fully realizing the potential of their Oracle deployments. Testing-as-a-Service (TaaS), however, enables a flexible, scalable, and cost-effective solution to meet the challenges of traditional testing, and provides a revolutionary approach to software quality assurance.

Business Problems

Traditional testing and validation pose several challenges, including:

Manual and time-consuming testing processes

Short timelines for analyzing and deploying updates

System integration failures

Outdated test scripts

Test result reconciliation

Accuracy concerns

Security and
compliance issues

Need for independent third-party testing
to ensure optimal performance

LTIMindtree Solution

LTIMindtree's TaaS offering leverages the RELY platform with prebuilt scenarios that eliminate the need for code changes or software installations. By offering up to 5X faster testing cycles, RELY ensures quicker yet accurate testing, propelling Oracle projects forward efficiently.

Features that help businesses realize the full potential of Oracle deployments:

|		
Out-of-the-box tests	Interactive dashboards for real-time visibility	Seamless support for all Oracle versions
End-to-end automation	Tighter audit control	

Highlights

The RELY platform provides a comprehensive suite of assurance and compliance services designed exclusively for Oracle test environments. Our TaaS offering provides end-to-end testing for Oracle Cloud applications powered by various in-house tools and partner tools like Tricentis Tosca and Tricentis QTest.

Our services include:

1. Test tools
2. Test cases
3. Test data management
4. Test suites and orchestrator
5. Test execution
6. Test process

Benefits

7000 certified consultants skilled in end-to-end test automation expertise

Comprehensive suite of automation scripts utilizing industry-leading tools

Vast repository of 800+ meticulously crafted test cases and 350+ automation scripts for Oracle Cloud

AI/ML-enabled bots offer pre-built solutions for test management and dashboards

Why LTIMindtree?

With our powerful assets like Canvas Insights, JukeBox, Plato, QPatch Analyzer, and BPAC Toolkit, we have set a new standard for Oracle SaaS testing. Our expertise in Oracle solutions and the RELY platform equips us better to guide customers through effective cloud transformations. Our capabilities empower our clients to navigate the various challenges of a dynamic global business landscape.

Conclusion

LTIMindtree embraces the limitless possibilities of technology with comprehensive IT services and solutions that help empower your business to thrive in this digital age. Our core strengths in deep industry domains and unmatched functional expertise enable us to deliver agile outcomes. With an extensive portfolio for Oracle, we are committed to helping businesses reimagine their business processes.

Success Story

LTIMindtree assisted a central South African bank in the high-risk migration of core banking applications that supported six countries while modernizing their platform. This enabled the client to reduce the regression cycle time from 8 hours to 11 min and achieve 84% test automation coverage.
